Shipyard life

Since September, our team has been busy on several fronts: improving and upgrading the Astus after their sailing season, manufacturing and delivering winter boats, processing new orders, and preparing for boat shows. The shipyard has remained fully active to ensure the continuity of our services.

Autumn Boat Shows

We had the pleasure of attending 3 major boat shows :

The Grand Pavois in La Rochelle with 3 Astus on display : A20.5, A22.5 et A26.5

The Mille Sabords in Le Crouesty with the Astus 26.5 on display

The Paris Nautic Show in Le Bourget

These meetings provided an opportunity for numerous discussions and wonderful encounters. They confirmed your interest in our Astus

2026 Transportable sailboat of the year

We are delighted to announce that our new model, the Astus 26.5, has been named « Transportable Sailboat of the Year 2026 » by Voile Magazine in its annual competition for new boats. Tests were carried out after the Grand Pavois boat show in La Rochelle, and an awards ceremony was held during the Paris Nautic Show.

This award recognises all the work done by our team and motivates us to continue our efforts to offer you innovative, high-quality boats.

We would like to express our sincere thanks to our customers, partners and employees. Your trust and support are essential and enable us to continue moving forward.
